Mathilde & Anaelle

We created in–alp because we believe elopement photography can be so much more than just a couple in the mountains. We both have a background in graphic design and are photographers as well, we're passionate about the details – the textures, the shapes, the atmosphere. For us, it's not just about capturing a moment; it's about creating a scene that feels alive, intentional, and elevated.

Our goal is to bring a more editorial touch to elopements, crafting stories that are rich in emotion and style. From the perfect back–drop to carefully curated details, we want to inspire photographers to think differently, push creative boundaries, and create something truly unique. (flatlay, picnic setups, table decor,...)

in–alp captures the spirit of ascending to new heights – both literally in the mountains and figuratively in creative growth and exploration.

who?

Anaëlle Iglesias aka Green Moon Photography

She's a wedding and elopement photographer with a deep love for art, nature, and meaningful connections. When she's not capturing love stories, you'll probably find her walking with her dog, soaking in the peace of the outdoors, or spending quality time with her family. You'll likely catch her sipping on an overpriced cappuccino or browsing through thrift shops for hidden treasures. She's also passionate about cinema, which sparks endless inspiration for her photography.

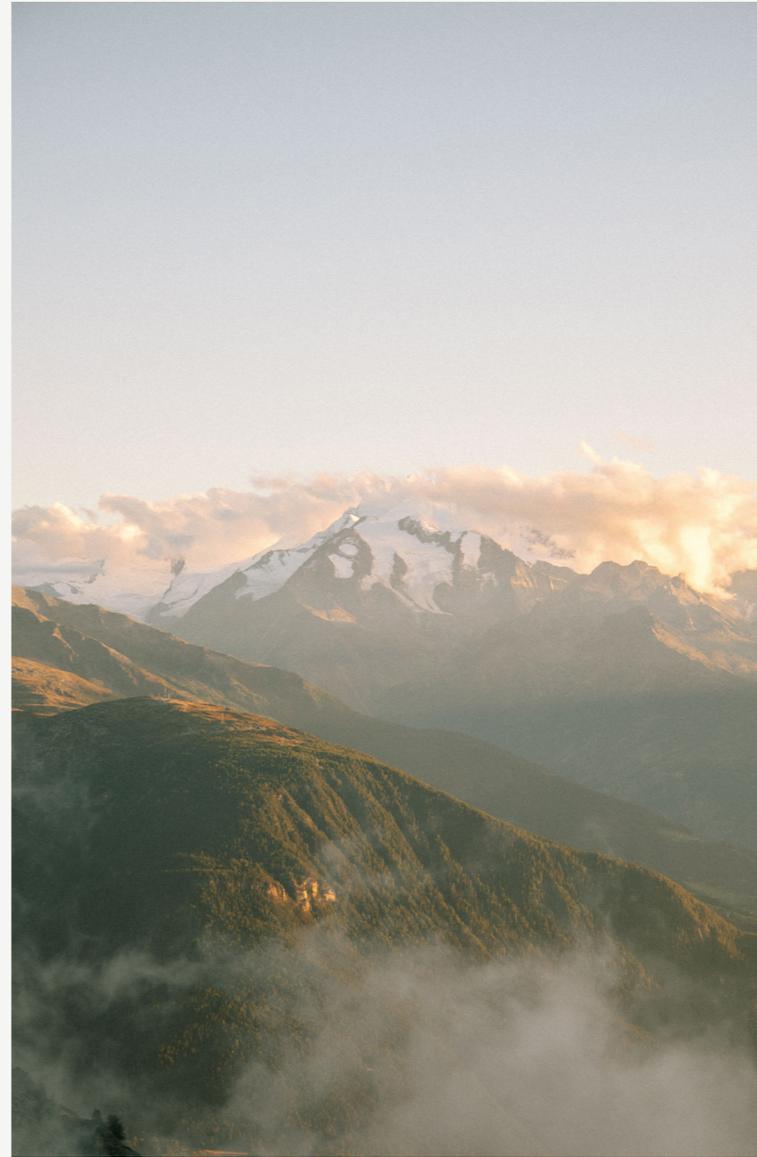

Mathilde Rietsch aka Frihead

I'm Mathilde, a swiss photographer. An artist at heart, I discovered my passion for photography 10 years ago and quickly found my calling in portrait photography. There's nothing quite like the joy of capturing the unique beauty of each person who steps in front of my lens.

When I'm not behind the camera, you'll often find me hiking—the mountains are my sanctuary. A decade ago, I didn't even know what elopements were, but today, I'm thrilled to combine my two greatest passions: the outdoors and capturing the beauty of people in breathtaking landscapes.
